

# Getting around the zoo

We have a 'yellow route', marked on the map below, which has been developed to give you the easiest route possible around the zoo and to avoid the steepest hills. This is a solid yellow line around the zoo's pathways.

A dotted yellow line indicates other enclosures or points of interest in that direction away from the main route.

If you follow the dotted yellow line, please remember to return to the solid line when continuing your journey.

## Toilets

All 13 sets of toilets around Colchester Zoo and at our cafés have facilities for those with disability.

## Changing Facility

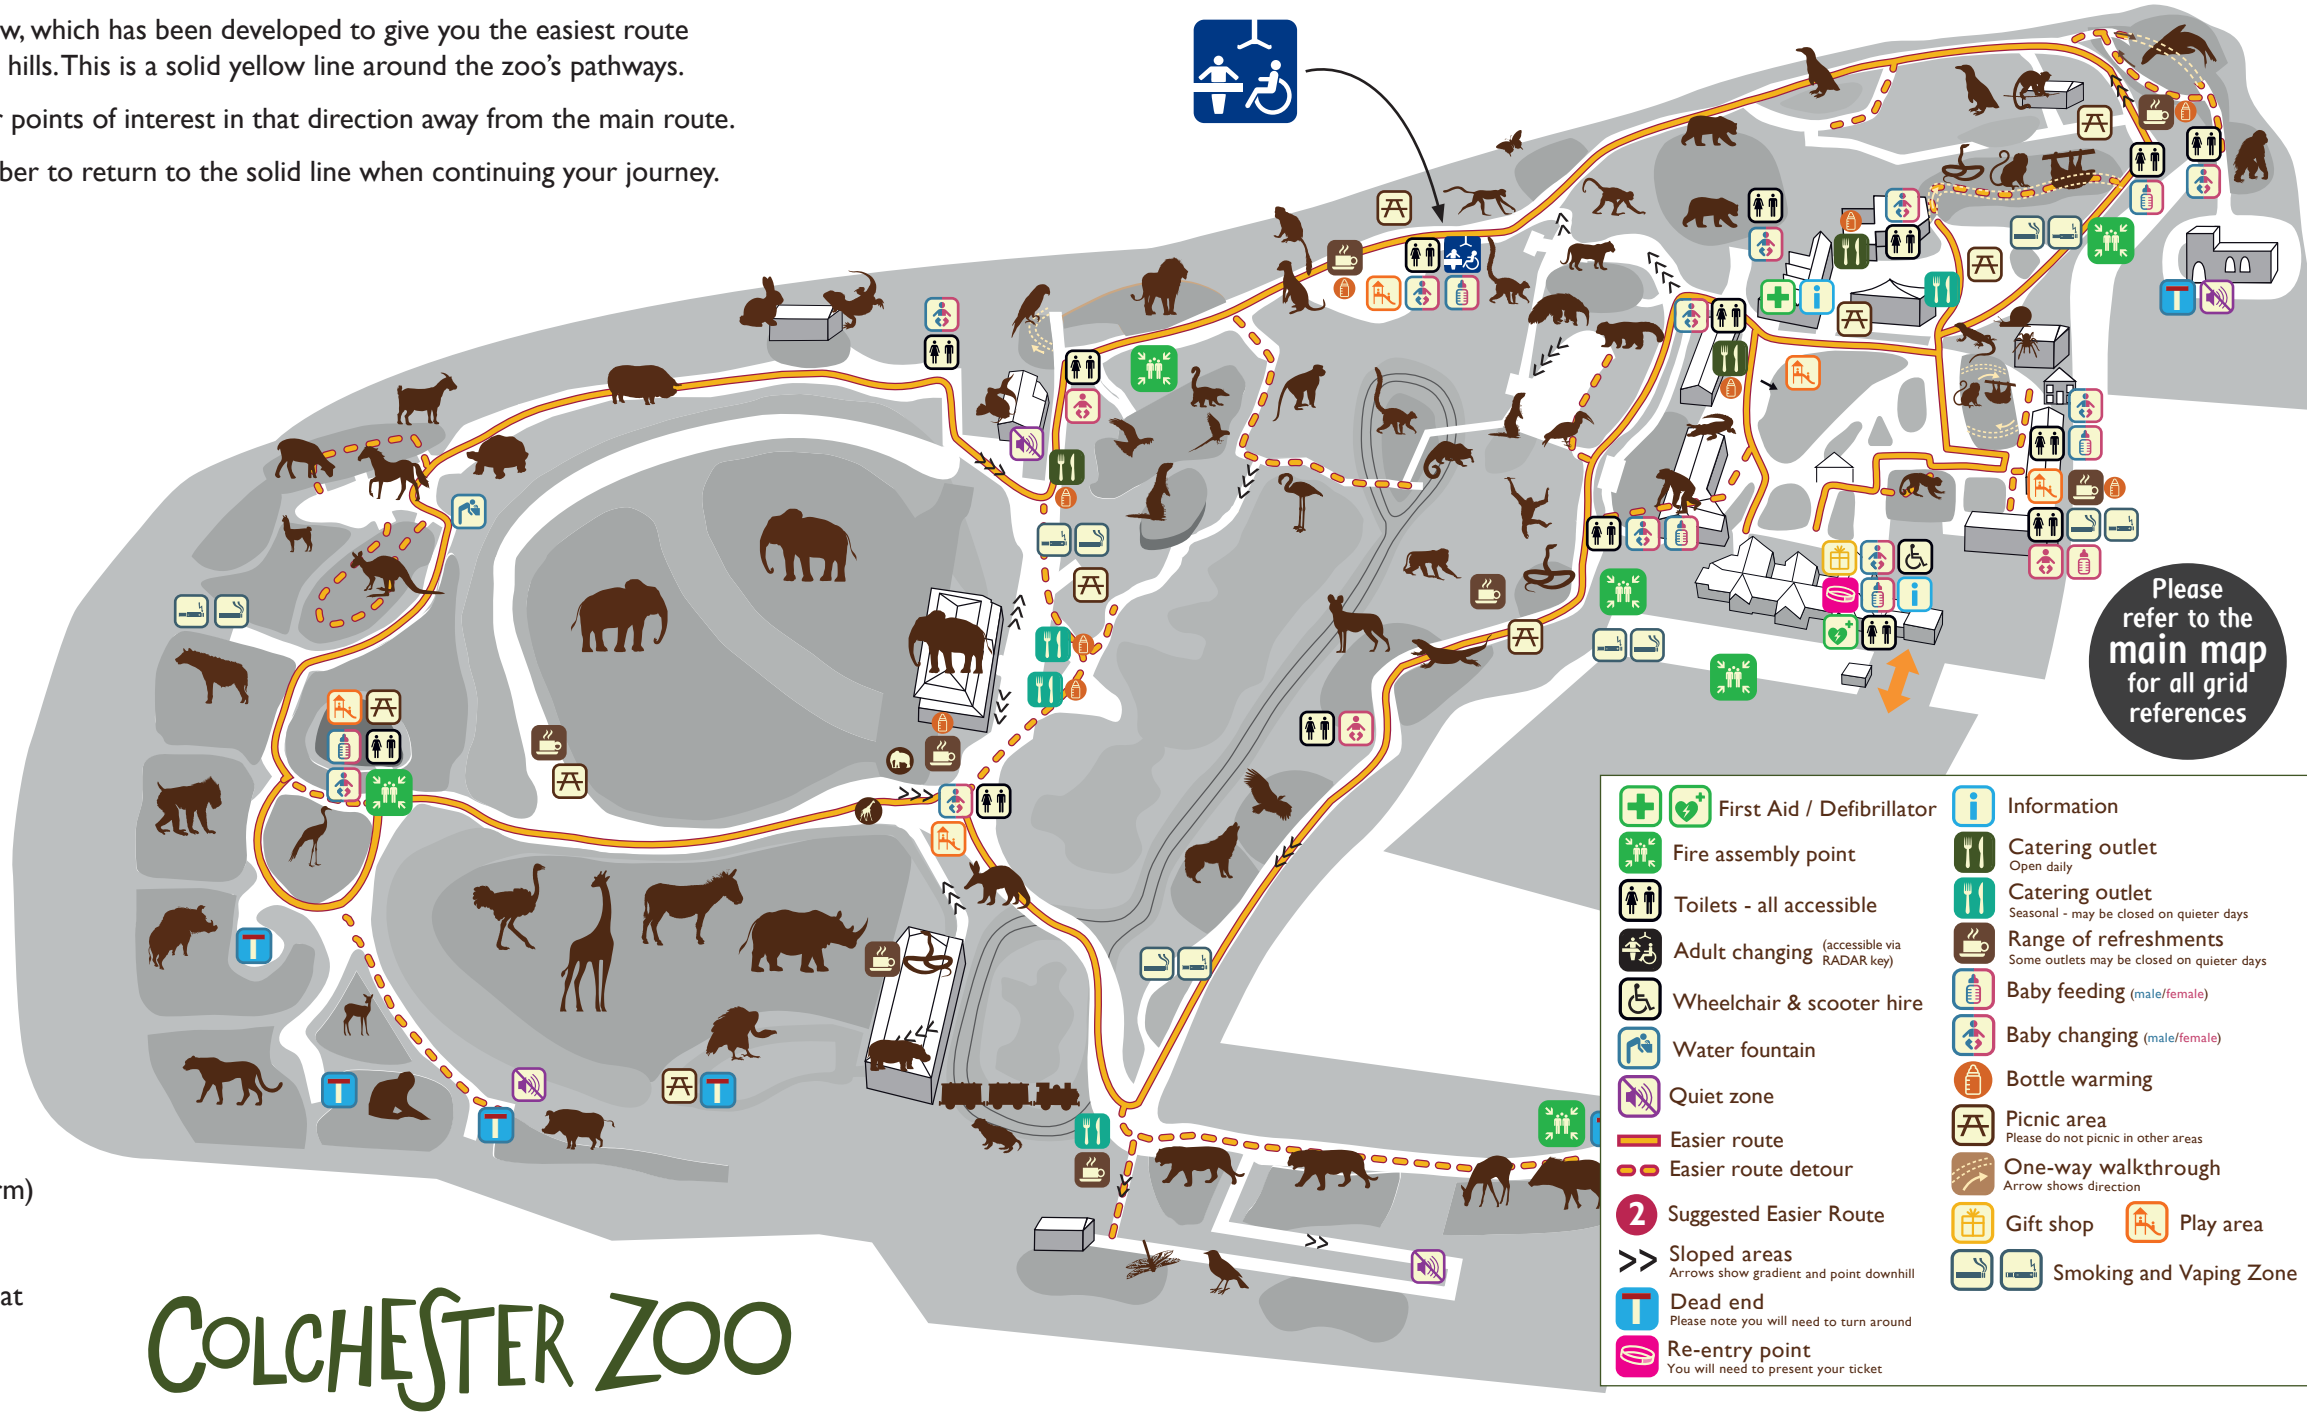

A registered Changing Places facility is available for those with additional needs at the toilets near the **meerkat enclosure**. Please refer to the main map for location and grid references.

## Mobility

Please note: that users of large equipment may experience problems in accessing some of our standard single doorways.

## Autism Aware

Please speak to one of our volunteers (blue uniform) to find out how to get the best experience at our animal feeding times. We have various quiet zones around the park, however, we cannot guarantee that the quiet zones will be quiet during busy periods. Please refer to the main map for locations and grid references.

Please refer to the main map for all grid references

	First Aid / Defibrillator		Information
	Fire assembly point		Catering outlet Open daily
