

# Accessibility Dogs Map

Although we love dogs, unfortunately, only registered assistance dogs and assistance dogs in training are allowed in the zoo, in the interest of the welfare of our animals and general safety.

## Toilets

All 13 sets of toilets around Colchester Zoo and at our cafés have facilities for those with disability.

## Changing Facility

A registered Changing Places facility is available for those with additional needs at the toilets near the **meerkat enclosure**. Please refer to the main map for location and grid references.

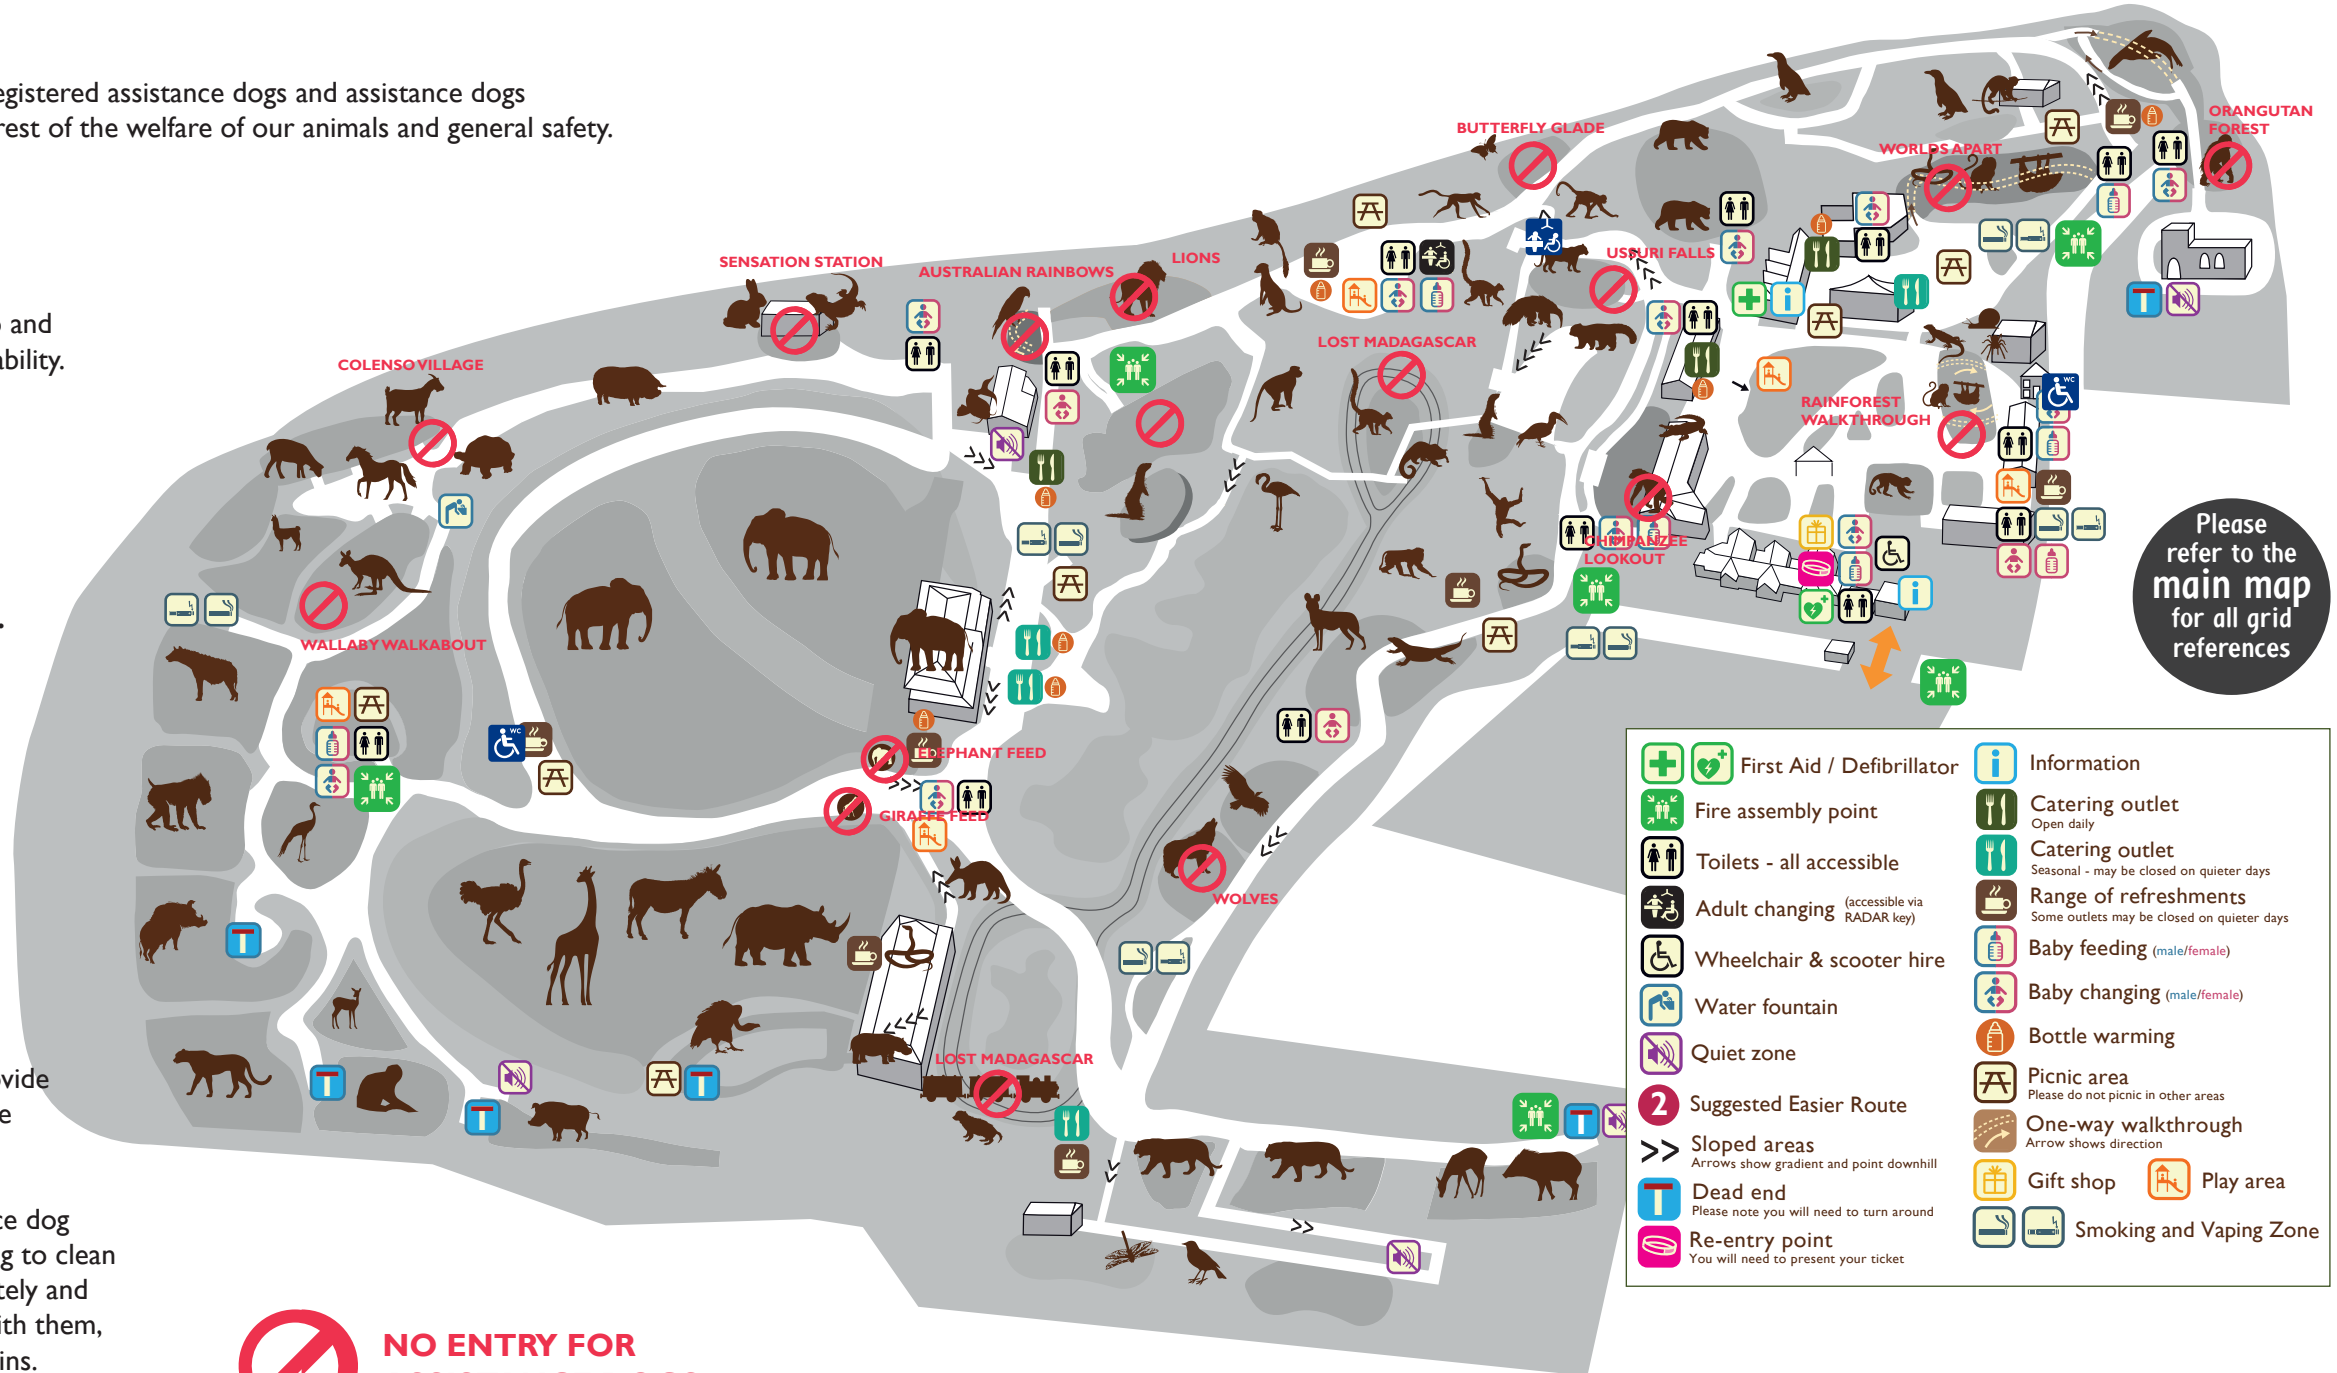

## Mobility

Please note: that users of large equipment may experience problems in accessing some of our standard single doorways.

Our catering outlets are happy to provide water for your dog, providing you have your own bowl.

It is the responsibility of the assistance dog owner or person in charge of the dog to clean up any foul left by their dog immediately and to ensure that it is and taken away with them, and not deposited in general waste bins. Please ensure you bring poo bags for your dog, Colchester Zoo will not provide poo bags.

 **NO ENTRY FOR ASSISTANCE DOGS**
