

Getting around the zoo

We have a yellow route which has been developed to give you the easiest route possible around the zoo and avoid the steepest hills.

This is a solid yellow line to follow around the zoo's pathways.

A dotted yellow line indicates other enclosures or points of interest in that direction away from the main route. If you follow the dotted yellow line, please remember to return to the solid line when continuing your journey.

Toilets

All 13 sets of toilets around Colchester Zoo and at our cafés have facilities for those with disability.

Changing Facility

A registered Changing Places changing facility is available for those with additional needs at the toilet facilities near the **meerkat enclosure**.

Mobility

Please note: that some users of some large mobility equipment may experience problems in accessing some of our standard single doorways.

Autism Awareness

Please speak to one of our volunteers (blue uniform) to find out to get the best experience at our animal feeding times. We have various quiet zones around the park, however we can not guarantee that the quiet zones will be quiet during busy periods. Please see map for zone locations.
